

Chateau Lednice

The pearl of South Moravia, one of the most visited places in the country, a UNESCO gem.

About

The Chateau surrounded by one of Europe's largest parks (almost 200 ha), in which the visitor finds the Palm House, the Venetian fountain, Roman aqueduct, the Chinese Pavilion, Minarett and John's Castle.

Seven hundred years of exemplary care by one family is something that has to be seen... The Liechtensteins administered the Lednice domain since 1322 and connected it with the Břeclav and Valtice domains. They gave the chateau its present appearance in the mid-19th century. They decided that Vienna was not the right place for aristocratic banquets and rebuilt Lednice into a summer residence in the spirit of the English (Neo-)Gothic. Magnificent meetings of European high society took place on the ground floor in the representative halls with carved ceilings and luxurious furniture. A tour of the chateau is a luxurious experience, you won't know where to look first.

Useful information

Web: www.zamek-lednice.com/en
